

The advertisement features a central image of an Ariston ONE boiler. The boiler is black with a digital display showing '36°' and '65°'. It is set against a background that is split: the left side shows a complex, glowing blue digital network, and the right side shows a traditional blue and white floral wallpaper. The entire image is framed by a thick red border.

HI-TECH, HI-COMFORT

ONE SERIES:

**THE NEXT GENERATION OF CONDENSING SYSTEM
FOR FULL HEAT MANAGEMENT.**

CLAS ONE

ALTEAS ONE

GENUS ONE

80 YEARS OF GROWTH DRIVEN BY INNOVATION

For many years we have been entering the homes of families who choose Ariston to improve and simplify their everyday life.

/ TODAY

Ariston is a worldwide leading brand in thermic comfort present in over 150 countries.

/ 1960s-1980s

Ariston brand is launched and the production of electric water heaters begins.

During 80s, Ariston has consolidated its market leadership in water heating and the production of boilers begins.

/ 1930s

Aristide Merloni founds "Industrie Merloni" company in the Marche Region of Italy, and starts the production of weighing scales.

COMFORT ALWAYS ON

We constantly improve ourselves, with dedication, passion and attention to details.

We believe that our technologies, energy performances and our products' design are valuable because they can truly improve the quality of life of our consumers.

This is our source of inspiration to guide us towards a future made of sustainable and intelligent comfort with the maximum pleasantness of our Italian touch.

In the evolution and technological changes, we are ready to offer you the best solutions for your everyday comfort, because our comfort is always on.

**DURABLE

**NEW PER⁴MANCE
SYSTEM:
A SYNERGIC
COMBINATION
OF EXCLUSIVE
TECHNOLOGIES.
ALL IN ONE.**

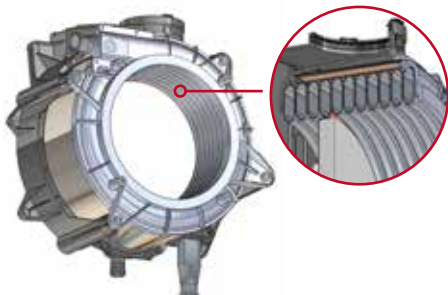

**ABSOLUTE
EFFICIENCY**

**FULL
COMFORT**

/ ADVANCED PERFORMANCE

DURABLE HEATING

The new and patented XtraTech heat exchanger is the heart of the heating ONE condensing technology, designed to guarantee reliable endurance performances over time.

New heat exchanger's design: larger pipes for improved water flow to increase heating performances. After years as the first day.

Performance guaranteed by TÜV certification.

 **ARISTON**

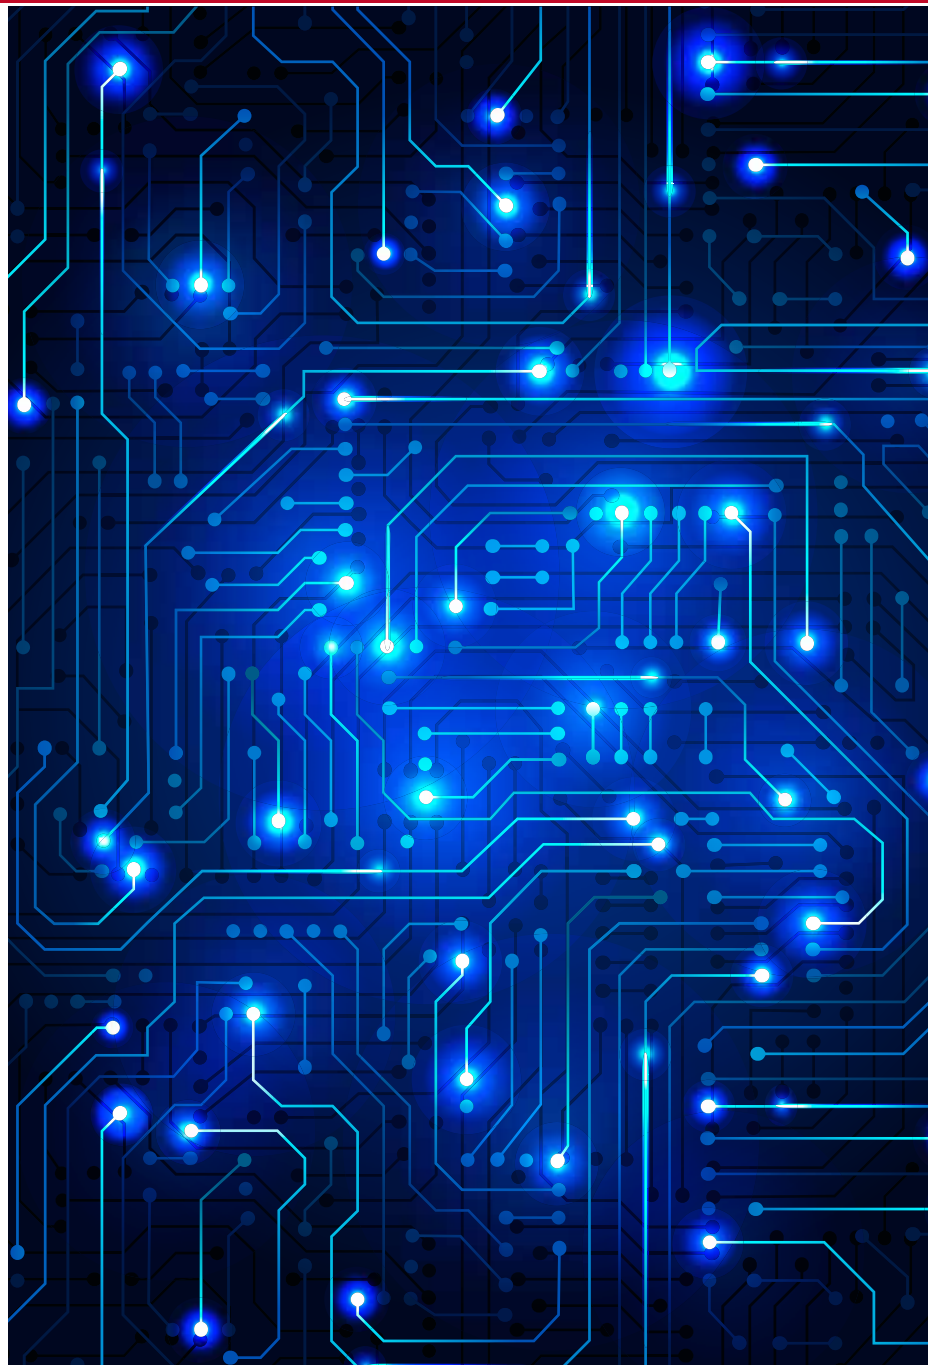

ONE
CONDENSINGTECH

/ ADVANCED PERFORMANCE

ABSOLUTE EFFICIENCY

One condensing technology and thermo regulation accessories enhance efficiency and performances, to reach **A+** Energy Class.

The innovative **Ignition System** with automatic combustion control and gas adaptability, is able to auto-detect the gas characteristics, granting constant heating performance, advanced control and safety in any condition.

/ ADVANCED PERFORMANCE

FULL COMFORT

A unique set of innovative smart functions for quick and stable heating temperature and easy customization to satisfy every need.

AUTO FUNCTION

Patented function allowing the automatic setting of home heating thanks to three inside and outside temperature sensors. No ON-OFF cycles and functioning peaks for optimized consumptions.

COMFORT FUNCTION

Hot water almost instantaneously, reducing the waste of cold water.

INTEGRATED TIME PROGRAMMING

Desidered weekly schedule of the heating directly from the product.

CARE FUNCTION

Alerts when the ordinary maintenance is due and when something needs to be checked by a professional.

SMART CONNECTIVITY

REMOTE CONTROL

A new generation of connectivity to easily set up, manage and control the system, getting a great saving of annual energy and technical support always on.

With Ariston Net you can set, modify and control your heating and hot water temperature anytime, with your smartphone or PC, wherever you are.

*saving to be adapted by countries

SMART CONNECTIVITY TOTAL REMOTE CONTROL

WHEREVER YOU ARE, ALWAYS AT YOUR FINGERTIPS

Managing and controlling your boiler from anywhere has never been so easy: now you can warm your home and have hot water ready for when you get back there.

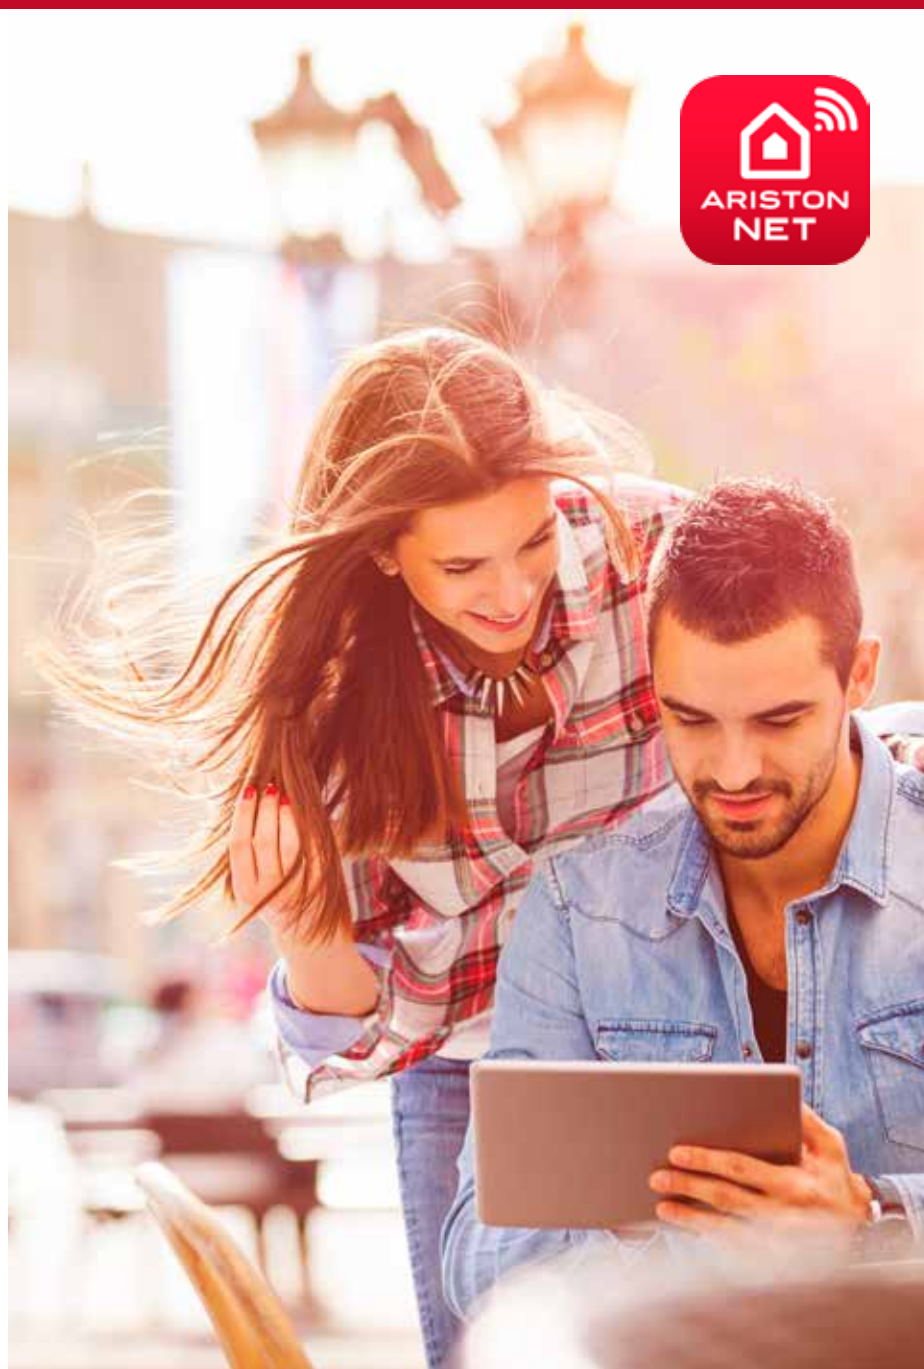

USE JUST THE ENERGY YOU NEED AND SAVE ENERGY

Improve the way you use energy by monitoring your consumption and schedule the use of your energy more efficiently.

TECHNICAL SUPPORT ALWAYS ON

Thanks to the innovative monitoring system, the app is able to advise you, in case of an occurrence of any problem to the system.

By activating the remote diagnostic service, your after sales service company is able to immediately solve many problems remotely.

THERMOREGULATION ACCESSORIES

For a quick and easy access to Ariston Net App enjoy the outstanding features of Cube and Cube S Net, new thermoregulation and connectivity accessories by Ariston. Always connected with your boiler.

CUBE

WIRED ROOM SENSOR

- / Connects Alteas One to Ariston Net
- / Up to 6 direct heating zones control thanks to wired and wireless zone management kits
- / Easy setting of the desired room temperature
- / Modulating technology
- / Wireless model also available

CUBE S NET

WI-FI THERMOSTAT

- / Connects Genus One and Clas One to Ariston Net
- / High Tech Italian style
- / High resolution display with touch buttons
- / Modulating Technology
- / Internet weather
- / Plug&Play installation

ONE SERIES:

THE NEXT GENERATION OF CONDENSING SYSTEM
FOR FULL HEAT MANAGEMENT.

100% 

**EVERLASTING
QUALITY**

/ 100% EVERLASTING QUALITY

100% GRANTED BY ARISTON

Every single component is developed in order to guarantee long-lasting performance and high efficiency: the Ariston warranty, branded inside.

10
YEARS

10 years warranty*: key components granted by Ariston

Branded inside: core components developed by Ariston to ensure the highest quality and excellent performance

*to be adapted by countries

 **ARISTON**

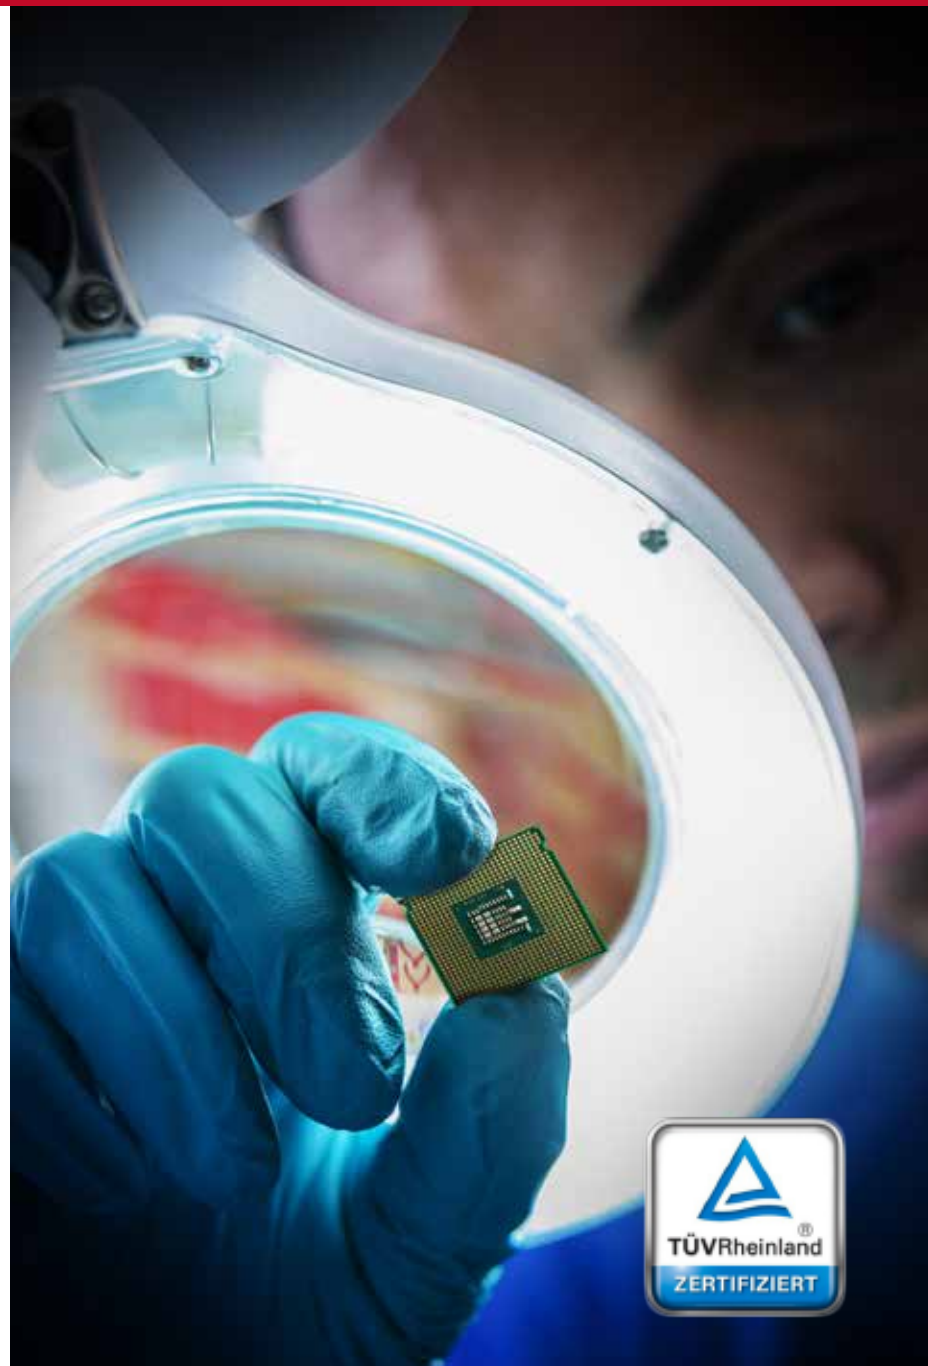

/ 100% EVERLASTING QUALITY

100% CHECKED AND TESTED

Every single Ariston product is carefully and strictly tested on quality, efficiency and safety before coming to you: our commitment for superior results.

Ariston quality protocol:

- 100% finished products checked before leaving the plant
- 100% of critical components are checked and tested (gas and hydraulic group control)
- Daily statistic quality control (30' of testing) for 2% of production
- Monthly quality reports for continuous improving

/ 100% EVERLASTING QUALITY

QUALITY PROTOCOL

100% OF PRODUCTS TESTED DURING PRODUCTION

The assurance of the highest quality on every single product

- / Real functioning test performed on water (or air) and gas to simulate the actual operation of the assembled boiler
- / Hydraulic power unit
- / Maximum pressure of the expansion vessel
- / Electric part
- / Effective water capacity
- / Endurance test on the airlock

ADDITIONAL STATISTICAL PROCESS CONTROL

About 4.000 hours per year

- / Simulation of the boiler operation (connected to water and gas): effective heating power, temperature, efficiency, noise, display functioning
- / Product safety: endurance of combustion chamber and main parts

LABORATORY TESTS

155 quality test and 30.000h test lab for each product

- / Noise
- / Compatibility of different gases
- / Extreme endurance of panels and display
- / Visual aesthetic test on the external shell of the product after assembling
- / Accelerated life test: extreme long life stress test to ensure the best performance after years as the first day
- / Transportation and drop test

/ 100% EVERLASTING QUALITY

100% MADE TO LAST

Strong and highly resistant materials, core components and products developed for the extreme working conditions to guarantee top level results, for longer.

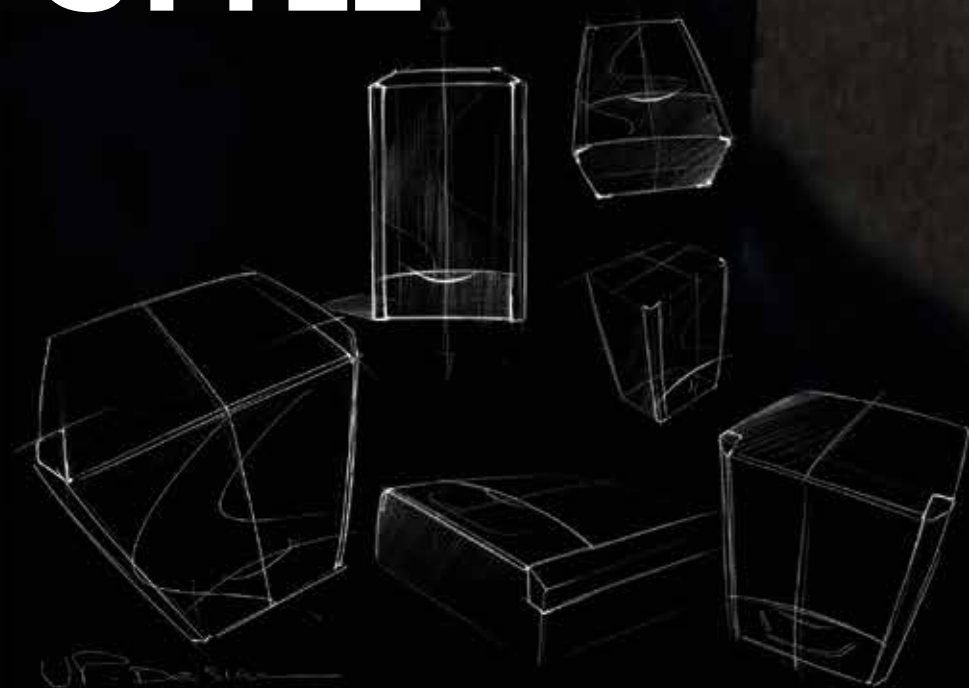

- Primary heat exchanger in stainless steel: 100% anti-corrosive, 100% recyclable
- From 6 months to 3 years of field test with real home installations
- Specific test on materials: glass resistance and metal corrosion

ONE SERIES:

THE NEXT GENERATION OF CONDENSING SYSTEM
FOR FULL HEAT MANAGEMENT.

ITALIAN STYLE

/ ITALIAN STYLE

HI-TECH LOOK

Innovative lines, new materials
and technological user interfaces for a more
comfortable experience.

- Touch screen display
- Easy temperature management
- Alteas One has tempered glass frontal panel, scratch proof and easy to clean. It is also treated to resist to high temperatures and to be super safe.

/ ITALIAN STYLE

A MASTERPIECE OF ITALIAN STYLE

A contemporary and captivating creation
of the Italian designer Umberto Palermo.
Engineered and produced in Italy.

DESIGN ITALIANO

Internationally awarded as one of the most
innovative and cutting-edge industrial product
and among the graphic designs

 **ARISTON**

/ ITALIAN STYLE

COMPACT STRUCTURE

Re-engineered internal components and layout for a slim shape and compact size. Thanks to the aesthetic of a new design, they fit in every situation, giving a touch of hi-tech to the environment and perfectly matching with every kind of style.

WI-FI EMBEDDED

ALTEAS ONE

NEW

CONDENSING WALL HUNG BOILER

DURABLE HEATING

/ ONE Condensing technology with the new and patented XtraTech heat exchanger, designed to guarantee reliable endurance performances over time.

ABSOLUTE EFFICIENCY

- / Ignition Control System to auto-detect the gas characteristics granting constant heating performance, advanced control and safety in any condition.
- / Up to 94% seasonal efficiency, able to reach A++ system with thermoregulation accessories and external sensor
- / Modulation ratio 1:10 for a more precise energy consumption, limiting product on-off.

SMART CONNECTIVITY

- / Ready for the Ariston Net remote control thanks to the Wi-Fi gateway on board
- / BusBridgeNet® technology ready, able to dialogue with other Ariston products, so that you can mix and match products (and energy sources) to optimize energy consumption.

FULL COMFORT

- / Equipped with AUTO, COMFORT and Care functions as well as the integrated timer programming.
- / Silent performance thanks to modulating pump and insulating panels.

HI-TECH LOOK

- / Glass frontal panel
- / High resolution Touch Screen Interface, LCD display with full text and intuitive menu from which you can easily set the temperature you desire and activate functions, and even manage different heating zones.

RANGE (kW) Combi 24/30/35

DIMENSIONS (height-width-depth) 745x400x315 mm.
